Beautiful & well-built home sitting on over 5 acres! Quick access to highway & 20 min to downtown Wasilla. Large private yard away from road. Very quiet location. LARGE bedrooms. Nice large great room w/10 foot walls and a vaulted ceiling. Large kitchen w/ 42 inch uppers & ample counter space. Great natural lighting in home w/many windows throughout. Great lighting in home and outlets abound!

Upstairs bedroom doesn't have a built-in closet but ample space to put one if desired (even an area that is recessed that would hardly lose space in the room) & home has a 3 bedroom septic. Very nice large 10x10 entry. Not your typical split entry floor plan. See Matterport for a better idea of the floor plan. Lovely 4 foot wide stairways and space at the bottom to access rooms to move furniture. Well planned! Upstairs space heater (Toyo type stove) is additional heating to the baseboard heating and has a separate oil tank for that unit. Not the primary heat source. See upgrade list for all updates. Pre-sale inspection completed & provided upon request. Many repairs already completed. Come see this great home for yourself!
